Aashar Mehmood

FULL STACK WEB DEVELOPER

ABOUT

Recent graduate in the field of Computer Engineering, seeking an opportunity in the field of web design and development, where I can apply my knowledge and skills for continuous improvement.

I have learned front-end technologies including animations, and responsive design. I can also create dynamic websites using PHP (Laravel) and MySQL along with using third-party APIs. I also have hands-on version control systems like Git.

PROJECTS

StarShare (Final Year Project using PHP, MySQL, JavaScript, Bootstrap)

Blog Website (PHP, MySQL, jQuery HTML5, CSS3)

Trending Movies Website (Fetch API , JavaScript, HTML5, CSS3)

Weather App (Fetch API, JavaScript, HTML5, CSS3)

Calculator App (HTML5, CSS3, JavaScript)

Form Validation (HTML5, CSS3, JavaScript)

Image Slider (HTML5, CSS3, JavaScript)
